Western Mass Youth Climate Summit

Teams of high school students from all over the Connecticut River Valley are invited to attend a 2 day workshop on climate solutions and action.

Join us on November 15th at the Hitchcock Center for the Environment and December 13th at Arcadia Wildlife Sanctuary to be trained, empowered, and inspired to create a climate solution for your community and help CHANGE THE WORLD.

“I can make a change in my community to solve climate change, and not just sit around thinking I can’t do anything to help.” - Climate Summit Participant, WMYCS
